October 8, 2023

Dear Cherry Hill Public Schools Community,

We are saddened by the news of the Hamas attack on Israel this weekend.

As many in our community struggle with the frightening images and descriptions of what is happening, assistance is available before school resumes on Monday. Resources are available online. [Care Solace](#) is a 24/7/365 concierge mental support in any language. Additional supports are available through the [Mental Health Resources page](#) of the District website.

During school hours this week, parents may request printed materials from their child's school related to the above resources. I also encourage students to see their guidance counselor for additional support if they need it during the school day.

If you have questions, please contact your building principal, or contact me directly.

Sincerely,

Kwame Morton

Kwame Morton, Ed.D.
Acting Superintendent, Cherry Hill Public Schools
