

## CHERRY HILL PUBLIC SCHOOLS COVID TRAVEL GUIDELINES

Please see below for the quarantine recommendations for students who have traveled. The quarantine guidelines listed below must be observed **prior to returning to school and or sports**. Please contact your school nurse for more information. Please be advised that these recommendations are subject to change. Refer to the links listed below for the most updated information.

### Domestic Travel Guidelines:

<https://covid19.nj.gov/forms/njtravel>

New Jersey has issued a travel advisory that asks anyone entering New Jersey from **any U.S. state or territory beyond the immediate region** (New York, Connecticut, Pennsylvania, and Delaware) to quarantine at home, in a hotel, or in other temporary lodging following recommendations from the CDC:

- If travel is unavoidable, travelers should consider getting tested with a viral test (not an antibody test) 1-3 days before the trip and again 3-5 days after the trip.
- If travelers test positive, they **should self-isolate for at least 10 days and should postpone travel during that time.**
- If travelers test negative, they should **quarantine for a full 7 days after travel.**
- If testing is not available (or if the results are delayed), travelers should **quarantine for 10 days after travel.**

**You no longer need to quarantine or get tested before/after domestic travel if you are fully vaccinated or have recovered from COVID-19 in the past three months:**

1. It has been more than two weeks since you received your second dose of the Pfizer-BioNTech or Moderna vaccine;
2. It has been more than two weeks since your received your first and only dose of the Janssen/Johnson and Johnson vaccine; **or,**
3. You have clinically recovered from COVID-19 in the past three months

**Please note that for international travel, the federal requirement for testing upon return to the United States still stands for both unvaccinated and fully vaccinated travelers – additional details are listed below.**

### International Travel:

<https://covid19.nj.gov/faqs/nj-information/travel-and-transportation/if-i-am-visiting-or-returning-to-new-jersey-after-international-travel-do-i-need-to-quarantine>

The CDC is requiring all air passengers entering the United States from a foreign country to provide proof of a negative test for COVID-19 or of recovery from COVID-19. Travelers are required to get tested no more than 3 days before their flight to the U.S. departs and show their negative result to the airline before boarding or be prepared to show documentation of recovery (proof of a recent positive viral test and a letter from a healthcare provider or public health official stating that they were cleared to travel). For more information, visit the [CDC website](#).

In addition, with specific exceptions, foreign nationals who have been in any of the following countries during the past 14 days may NOT enter the United States: China, Iran, countries in the [European Schengen Area](#), United Kingdom, Republic of Ireland, Brazil, and South Africa. For more details and a full list of exceptions, refer to the [CDC's update on travelers prohibited from entry](#).

International travelers should also refer to [guidance published by the CDC](#) and check the [CDC's COVID-19 travel recommendations by destination](#). Many countries are categorized as a Level-4 high COVID-19 risk, and the CDC recommends avoiding all travel to these countries. Visit the CDC for information on [testing and international travel](#).
