

Welcome to a new school year. The Cherry Hill Public School Elementary nurses would like to share some important information related to school health policies and procedures.

Communication

- Please complete the health record update located on the parent portal in Genesis. **It is imperative to have names and phone numbers of adults to contact in your absence if your child becomes sick or injured during school.**

Illness

Is my child too sick to go to school? To determine if your child should stay home, use these guidelines or contact your school nurse.

- Fever of 100 degrees Fahrenheit or more: Keep your child home for a minimum of 24 hours after the temperature returns to normal (98.6) without the use of fever reducing medication.
- Vomiting or Diarrhea: Keep your child home for a minimum of 24 hours after the last episode.
- Rash: If the cause is unknown, please check with your physician before sending your child to school.
- Based on your child's demeanor, ask “ Is my child available to learn?”

Medication

- All medication, which includes prescription and over-the-counter (OTC) medicines require a written physician’s order and must be brought to the nurse’s office by an adult in the original prescription or manufacturer’s labeled bottle.
- Students **are not** permitted to carry medication. ****Students may not self-carry medications (*Epinephrine Auto Injector or Asthma inhalers may be permitted if age-appropriate and required documentation on file from the physician and parent)**
- All medication, which includes prescription and OTC medicines, **must** be administered by the nurse.
- Medication permission forms must be completed by both the parent/guardian and physician for all prescription and over-the-counter medication to be administered during school hours (with the exception of Tylenol or Motrin which requires parent/guardian permission only. The permission form must be completed through the parent portal in Genesis).

Immunizations

- Please submit entrance and updated immunization records as your child receives new immunizations. Students who are missing required immunizations may be excluded from school.
- The influenza vaccine is mandatory for Pre-K students (age 4 or less at the start of the school year.) One dose is required each year on or after August 1st.

Health Screenings

- Students may be screened for height, weight, vision, hearing, blood pressure and scoliosis. Referral notices for follow up with a physician will be sent home for any concerns. ***Contact your nurse in writing if you do not want your child screened. If you decline school screenings, please provide written documentation from your child’s healthcare provider regarding results for the yearly screenings.**

Orthopedic Injuries

- Students with casts, immobilizers, boots, or crutches must be reported to the nurse prior to the student going to his/her classroom.
- A physician’s note must be brought to the nurse with the diagnosis.
- ***A note of clearance from the prescribing physician is required if a timeframe is not included in the original excuse. This is necessary in order for your student to resume activities that were restricted by the prescribing physician.**

Please contact your building nurse if you have any questions or concerns regarding your child’s health. We look forward to a wonderful school year.
